EXEMPTIONS

Grounds for seeking an exemption:

Parents or guardians may apply for an exemption where:

- An aspect of the Policy offends a religious belief held by the student/parents/guardians.
- An aspect of the Policy prevents the student from complying with a requirement of their ethnic or cultural background.
- An aspect of the Policy prevents students with disabilities from being able to attend school or participate in school activities on the same terms as other students.
- The student has a particular health condition that requires a departure from an aspect of the Policy.
- The student or the parent/guardian can demonstrate particular economic hardship that prevents them from complying with the Policy.

Procedures for seeking an exemption:

Parents or guardians may seek an exemption by writing to the principal, setting out the grounds for the exemption.

Procedures for granting an exemption

In response to a written request for exemption the principal should make enquiries and seek evidence as to whether the grounds for exemption are valid, and then determine what kind of exemption is appropriate; for example, a modification of the dress requirement may sometimes be sufficient. When considering a request for exemption on the grounds of economic hardship the principal may grant financial or other assistance to the parent(s)/guardian(s) to enable the student to comply with the dress code without stigma or undue embarrassment.
